SUBJECT

SOCIAL MEDIA

Social Media is no longer a fancy term, instead, it is a necessity in today's times for both, individuals and businesses alike. The importance of social media in our lives is now unquestionable. For most of us, social media is an important part of our lives. Facebook, Twitter, Instagram, WhatsApp choose your favorite. Also, there is no denying that our days are incomplete without these sites. In the year gone by, the importance of social media was even more appreciated. Since the year 2020 it has been quite a different life and unlike any of the previous years in many aspects. With countries going under lockdown for months; our needs, priorities, and lifestyle too had taken a shift. The way we earn, spend, learn, and even socialize was unlike what we did before 2020. Since we couldn't move out of our homes for days or even months, internet and social media sites were our only resort. It was during this time that we realized the real importance of social media and how impacts it is on our lives.

ABOUT SOCIAL MEDIA

SOURCE FOR CONNECTIVITY

Social media has revolutionized communication by making it easy to connect with people globally. It enables individuals to stay in touch with friends, family and colleagues, regardless of geographical barriers. Next on the list of pros of social media has to be entertainment. Videos, music, games, and live streaming are just a few entertainment possibilities on social networking. Users can find a never-ending supply of entertaining videos on websites like YouTube and Instagram.
